## Agenda

- **L'editore Springer, attività e prodotti**
- **Convezione tra Springer Italia e Biblioteca Marconi CNR**
- **Acquisizione degli eBooks di Fisica, Astronomia, Chimica e Scienze dei Materiali da parte della biblioteca**
- **Gli eBook Springer - collane, enciclopedie, reference e collection di ambito multidisciplinare**

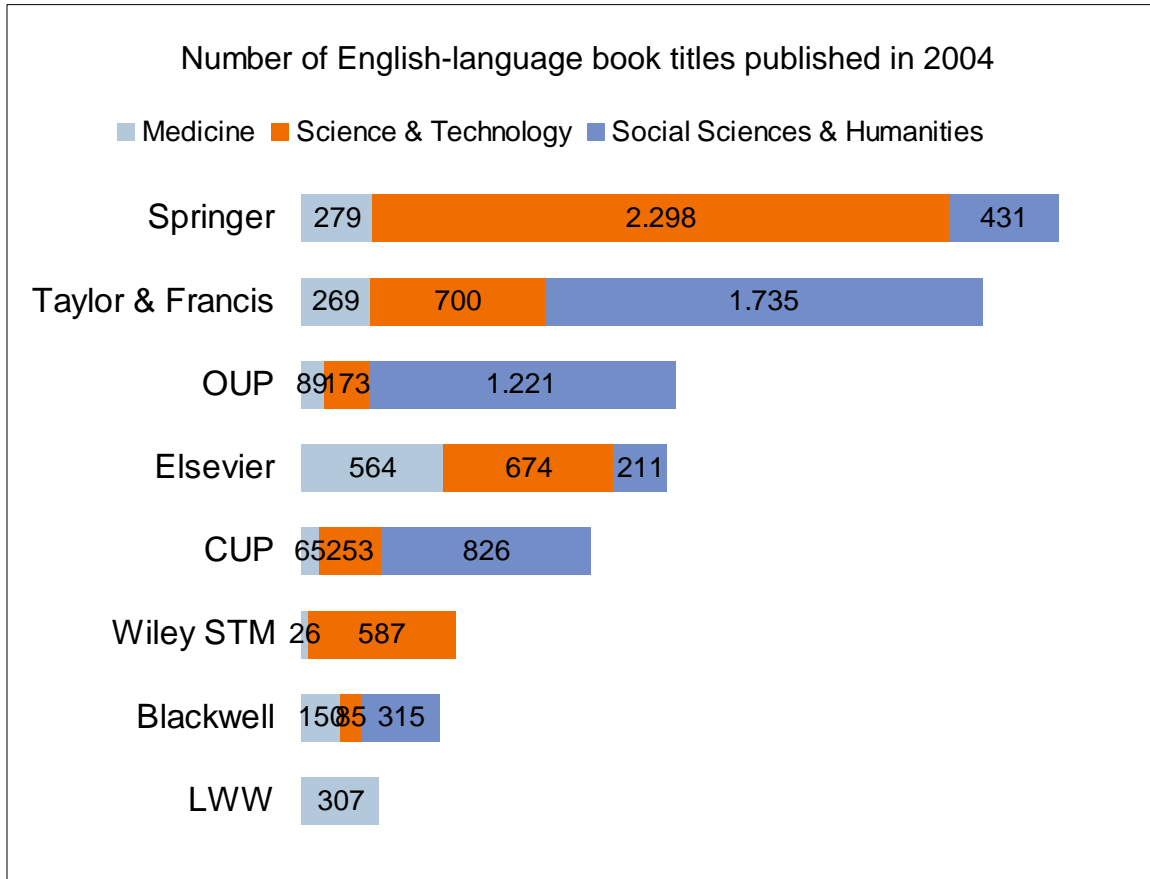

## La casa editrice Springer...

- ... 76 case editrici in 19 paesi e circa 5000 dipendenti
- ... il secondo player a livello mondiale nel ramo dell'editoria specializzata STM con oltre 1600 periodici ed il primo in assoluto per la pubblicazione di libri, con oltre 4000 opere all'anno in formato cartaceo e digitale
- ...il primo editore al mondo ad aver messo a disposizione l'intero catalogo editoriale attraverso un'unica piattaforma integrata [www.springerlink.com](http://www.springerlink.com)
- ...un'offerta multidisciplinare di oltre 19.000 libri in formato elettronico

- Circa 350 accordi consortili a livello mondiale
- Oltre 10.000 istituzioni hanno accesso a SpringerLink
- Circa il 75% dei consorzi Springer accede all'intero catalogo
- La Biblioteca Marconi di Roma e la gran parte delle sedi del CNR in tutta Italia accedono all'intero catalogo dei periodici grazie all'accordo nazionale CARE

- E' di recente realizzazione la Convenzione in materia di deposito legale delle pubblicazioni on-line edite in Italia stipulata tra la Biblioteca Centrale del CNR e la Springer Italia
- Springer Italia concede e garantisce alla Biblioteca Centrale l'acquisizione - per diritto di accesso gratuito e permanente - delle proprie opere editoriali edite in Italia e diffuse tramite rete informatica e si impegna al tempo stesso a provvedere senza oneri aggiuntivi anche alla conservazione delle stesse garantendone l'integrità e l'autenticità
- Springer Italia si impegna a comunicare con preavviso l'eventuale impossibilità di continuare ad assicurare la conservazione dei documenti depositati
- La Biblioteca Centrale del CNR ritiene soddisfatto da parte dell'editore l'obbligo di deposito editoriale e ne rilascia certificazione e si impegna ad utilizzare quanto depositato nei termini previsti dalla legge per le biblioteche depositarie.

## **Per il CNR:**

- Maggiore quantità e migliore qualità di documentazione recepita
- Svecchiamento dei servizi e celerità nella distribuzione dell'informazione
- Inserimento dei titoli nell'OPAC (catalogo online) della biblioteca
- Nuovo ruolo per i bibliotecari

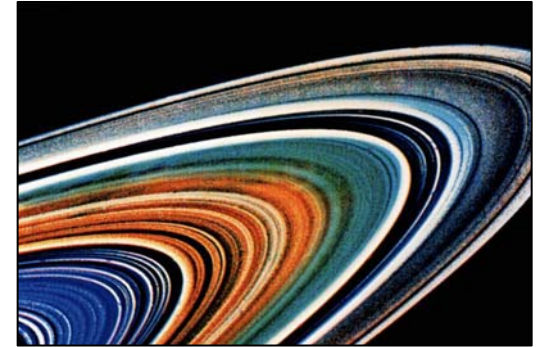

## **Per Springer:**

- Maggiore visibilità per i (nuovi) prodotti editoriali
- Valore aggiunto anche a livello di marketing
- Incentivo a orientare l'utenza verso nuove forme di comunicazione scientifica e di aggiornamento online

- La Biblioteca Marconi ha acquisito a titolo perpetuo l'integralità degli eBooks editi da Springer Science Business and Media per le aree di:
  - Fisica e Astronomia
  - Chimica e Scienze dei Materiali
- Accesso a circa 1500 eBooks
- Annate di copyright 2005, 2006, 2007 e 2008
- Graduale e continua integrazione nell'OPAC
- MARC records
- Nessuna limitazione di utenza simultanea
- Download in pdf a livello di singolo capitolo

- The program covers all disciplines of the field:
  - Astronomy & Astrophysics
  - Condensed Matter
  - Optics & Lasers
  - Mathematical Physics
  - Mechanics & Thermodynamics
  - Nuclear & Particle Physics, and many more.
- Our portfolio consists of monographs, professional books, references, and textbooks.

- Some 47 Nobel Prize laureates have contributed to our portfolio of:
  - Monographs
  - Textbooks
  - And references
- The renowned review series *Advanced Organic Chemistry* (by Carey and Sundberg) since 1977
- Cutting-edge reference works like the *Handbook of Petroleum Processing* (by Jones), *Modern Magnetic Resonance* (by Webb) and the *Chemistry of Actinide and Transactinide Elements* (by Morss)

## Recent top sellers include:

- Yu: **Fundamentals of Semiconductor**
- Gustafson: **Genome Exploitation**
- Egerton: **Physical Principles of Electron Microscopy**
- Blümich: **Essential NMR**
- Vannice: **Kinetics of Catalytic Reactions**

## Notable Book Series include:

- Advances in Biochemical Engineering / Biotechnology
- Advances in Polymer Science
- Molecular Sieves: Science and Technology
- Structure and Bonding
- The Handbook of Environmental Chemistry
- Topics in Current Chemistry
- Topics in Heterocyclic Chemistry
- Topics in Organometallic Chemistry
- Progress in Colloid and Polymer Science

# Il catalogo completo degli eBooks

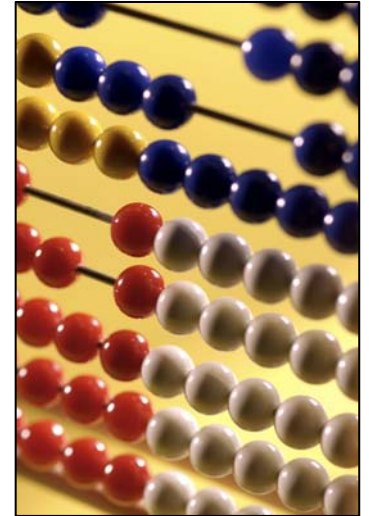

- Annate di copyright 2005, 2006, 2007 e 2008
- Oltre 4000 eBooks all'anno
- 13 macro aree disciplinari
- Nessuna limitazione di utenza simultanea
- Download in pdf e html
- Enciclopedie, atlanti, monografie, Reference
- Interconnessione diretta con oltre 1600 periodici e 19.000 Protocolli

# Mathematics & Statistics

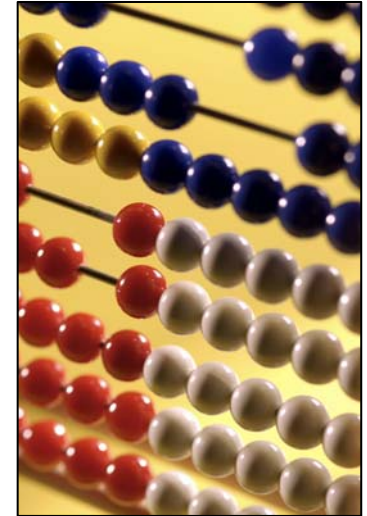

- More than 325 new eBooks per year
- The clear market leader in Mathematics
- Publications include:
  - textbooks,
  - research monographs,
  - source books,
  - lecture notes,
  - collected papers, and
  - trade titles.
- With books covering a broad range of subject areas, from core topics like algebra, analysis, and geometry, to the recent, rapidly developing areas of mathematical biology and quantitative finance.
- An abundant selection of top-notch titles by award-winning authors.

# Mathematics & Statistics

## Notable book series include:

- Classics in Mathematics
- Encyclopaedia of Mathematical Sciences
- Ergebnisse der Mathematik
- Grundlehren der mathematischen Wissenschaften
- Graduate Texts in Mathematics
- Interdisciplinary Applied Mathematics
- Lecture Notes in Mathematics
- Springer Finance
- Springer Undergraduate Mathematics Series
- Texts in Computational Science and Engineering
- Undergraduate Texts in Mathematics
- Universitext
- Springer Series in Statistics
- Springer Texts in Statistics
- Statistics for Biology and Health
- Statistics and Computing

## Excellent eReference Works include:

- Dodge: **Concise Encyclopedia of Statistics**

- More than 800 new eBooks per year
- Lecture Notes in Computer Science (LNCS) series
- Springer's excellent portfolio covers areas such as:
  - Artificial Intelligence,
  - Bioinformatics,
  - Computer Communication Networks and Telecommunications,
  - Image Processing,
  - Information Systems and Applications, incl. Internet/Web, and HCI,
  - Programming and Software Engineering,
  - Security and Cryptology,
  - And Theoretical Computer Science

## Notable book series:

- Advances in Information Security
- Computer Communications and Networks
- Computer Supported Cooperative Work
- EATCS Texts
- IFIP Series
- Natural Computing Series
- Texts in Computer Science

And **Lecture Notes in Computer Science** (LNCS), including its sub series Lecture Notes in Artificial Intelligence (LNAI) and Lecture Notes in Bioinformatics (LNBI). LNCS is the medium for new developments in computer science and information technology research and teaching - quickly, informally, and at a high level. In 2006 close to 4000 books are available online through SpringerLink, adding nearly 500 volumes a year.

# Medicine

- More than 250 new eBooks per year
- Leading in their fields Springer's excellent portfolios in:
  - Imaging,
  - Nuclear Medicine,
  - Surgery,
  - Health and Medical Informatics

are widely known and highly acknowledged.

- Also notable and critically acclaimed are Springer publications in
  - Oncology,
  - Pathology,
  - Intensive Care Medicine and
  - Orthopedic Surgery.
- Additionally, Springer has fast growing book programs in the fields of Cardiology, Dermatology, Ophthalmology, Otorhinolaryngology and Urogynecology.

## Notable book series include:

- **Medical Radiology: Diagnostic Radiology**
- **Medical Radiology: Radiation Oncology**
- **M.D. Anderson Cancer Care Series**
- **Health Informatics Series**
- **Essentials in Ophthalmology**
- **Springer Surgery Atlas Series**
- **Update in Intensive Care and Emergency Medicine**

## Excellent eReference Works include:

- **Dermatology Therapy. A to Z Essentials**
- **Rheumatology and Immunology Therapy. A to Z**
- **Encyclopedic Reference of Imaging – *Forthcoming***

## Biomedical & Life Sciences

- Over 300 new book titles each year
- Covering the fields of biological sciences, experimental medicine, biomedicine, food science, and environmental and plant sciences.
- Main titles recently published:
  - **Bergey's Manual of Systematic Bacteriology**
  - **Principles of Fluorescence Spectroscopy**
  - **Plant Ecology**
  - and the popular **Academic Scientists at Work**
  - Textbooks like **Modern Food Microbiology**, **Principles of Terrestrial Ecosystem Ecology** **Stream Ecology** are standards in the classroom

## eReference Works include:

- Schmidt: **Encyclopedic Reference of Pain**
- Capinera: **Encyclopedia of Entomology**
- Dworking: **The Prokaryotes: 1-7**
- Henke: **Handbook of Paleoanthropology**
- Mehlhorn: **Encyclopedic Reference of Parasitology**
- Schwab: **Encyclopedic Reference of Cancer, 2nd edition** – forthcoming
- Ruckpaul: **Encyclopedic Reference of Genomics and Proteomics in Molecular Medicine**
- Vohr: **Encyclopedic Reference of Immunotoxicology**
- Vogel: **Drug Discovery and Evaluation: Safety and Pharmacokinetic Assays**
- Lang: **Encyclopedic Reference of Molecular Mechanisms of Disease** – forthcoming
- Offermanns: **Encyclopedic Reference of Molecular Pharmacology**
- Tidona: **The Springer Index of Viruses, 2nd edition** – forthcoming
